For Immediate Release
May 7, 2020

At the regularly scheduled meeting on May 6, 2020 the LTMUA Board of Commissioners discussed and passed a resolution offering assistance to our water and sewer customers.

As a result of the COVID-19 pandemic, numerous business's in the Township of Lower have had to temporarily close or have otherwise experienced extraordinary interruptions in their normal business operations.

In light of the financial and economic hardship that is presently being experienced by our private and business customers, the Board of Commissioners deemed it prudent and in the best interest of its customers that various provisions of Resolutions 170-2010 and 171-2010 be suspended for a period of six (6) months beginning on May 1, 2020 and ending on October 31, 2020.

The Board of Commissioners have granted the Authority Executive Director, Authority Secretary and the Authority Financial Advisor to implement the following:

1. Suspend the accrual of interest on water and sewer accounts that are delinquent as of May 1, 2020 (or become delinquent thereafter) shall be suspended until October 31, 2020.
2. Termination of water and sewer services for non-payment of service charges shall be suspended.
3. No water or sewer service restoration fees shall be charged between May 1, 2020 and October 31, 2020.

The Authority encourages customers that are delinquent or may become delinquent as a result of the COVID-19 Pandemic to maintain regular communication with the Authority Billing office. We will assist you in developing payment plans.

The Authority Building and Operations Facilities remain closed to the public. To protect the safety of the Authority Staff and Employees, we are working alternating schedules so we can ensure the continued delivery of essential water and sewer service to our customers. Our phones may ring a little longer, it may take a little more time to respond to a service request but we are here to serve you.

Stay Safe!!
